

Dear GBO Member,

Welcome to the GBO March Newsletter! In this edition, we are concentrating on the topics that occupy everybody's minds - how can we deal with the current situation and how are we going to move forward after this? Below are examples on how the GBO community is coming together to be stronger.

Virtual Meetings

As you will already know, all GBO meetings have moved virtual. After the first week with a busy calendar, we are very pleased how well these virtual meetings are received and to see and hear how GBO members around the world come together to bond, ask for and offer support and to share experiences and best practices.

We encourage all members to participate in ANY virtual meeting. No matter if you Zoom from the Netherlands into a GBO Madrid meeting or from São Paulo into a GBO Dubai meeting - now is the time to meet your fellow members from other chapters!

In addition, we have created new virtual meeting opportunities for everybody:

Worldwide Virtual Meeting

Yesterday, Thursday 26th of March 2020 marked the first GBO Worldwide Virtual Meeting with a total of 43 attendees. We discussed the possible ways forward, how an international network like GBO can make an impact and drive change not only in the business world but also in our personal lives.

The next Worldwide Virtual Meeting is scheduled for Friday, 10th of April at 18:00 CET. Registration via:

A number of initiatives have already been set in motion:

* **New forums in the [Discussion Boards](#) - Crisis Management - Resources and Support**

The "Voice your problem, fear or concern" forum is set up to work in a unique way - members can publish their current challenges, questions, fears or concerns and other members will reply with a short video, which will create a video resource library on our YouTube channel. Thank you [Rodolfo](#) from GBO Madrid for this fantastic idea! After all, the best way to solve a problem is to ask! Please use these forums to share and discuss any topic around the coronavirus so

the city WhatsApp groups can be used for GBO announcements and updates and, as usual, for questions from members.

*** Worldwide Virtual Meetings Industry Groups**

To streamline discussions and bundle expertise and support, the following worldwide industry meeting groups will be set up as soon as possible:

Tourism / Hospitality / F&B / Travel
Real Estate / Property Development / Building and Construction
IT / Business Services / Virtual Economy
Health Care / Well-being / Personal Development
International Business / Trade / Law
Founders & Investors Think Tank

To maximise the potential of these virtual meetings, hosts with experience in the relevant sector are needed. **Are you are interested to drive any of these sectors forward and act as a moderator/host?** Please send a short mail or WhatsApp message to michaela@globalbusinessowners.com to coordinate dates and times.

GBO Broadcast

In our last Newsletter, we offered 10 opportunities to use the GBO Broadcast service for free.
